IN SUMMARY JURISDICTION. BEFORE Mr. A. J. LEACH, ACTING PUISNE JUDGE.

TAVARIA V. BAROOCHA. This was a claim on a promissory, note dated the 5th December, 1878. Mr. Webber appeared for the plaintiff, and Mr. Wilson of (Mesers, Wotton and Descon's)

His Lordship, having heard the document read, 1797 fame. He is a member of the Chamber said he thought it was a promissory note. With regard to the Statute of Limitations it was laid down in Roscon's Nisi Prius that a note payable on demand was payable immediately, and that the Statute of Limitations applied from the date. of the note and not from the date of the demand.

Mr. Webber said no cause of action could arise

until demand was made. Mr. Wilson said his general defence was that the claim on the note had been satisfied. His client's books had been destroyed in the fire of 1878 and therefore it was impossible for him to produce them and show this. There had been no demand made for this money since the time the note was given till the writ in the present Mr. Webber said if his friend admitted that,

it would not be necessary for him to call plaintiff to prove it. Mr. Wilson said he would call the defendant to prove that the debt was satisfied. He did not wish the court to think that the defendant was taking advantage of the Statute of Limitations

to secure release from his just debts. James Sorab Lucas said he was sand in this case under the name of "Baroocha." AN OIL POOL. PITTSBURG, 1st November. The gigantic shut-down in production went into effect to-day, and for a year hence there will be a complete stoppage of one-half the total petroleum production, based on the gauges of the wells during July and August. No glyceriue is to be used in the same time, and no wells are to be cleaned out. The general feature of the deal is that the Standard Oil Company has set 5,000,000 barrels of oil at 61 cents a barrel, and the profits on this are to be divided among those producers who shut in their wells. In addition to this the Standard and the producers have made a pool of 2,000,000 barrels, the profit socraing from which is to create a Wage fund for labouring men out of employment. He openly advocated and indorsed the entire State ticket.

NEW YORK, Sth November. The election in this State appears to be a complete sweep for the Democrats. The leading officer on the State ticket is Secretary of State. Six hundred and eighty four towns and cities ontside of New York City and Kings County (the cities of New York and Brooklyn and three or four minor villages) give Cook (D.) 108,991. Grant (R.) 121,220, George (L.) 70,084 Hantington (P.) 11,772. The same towns in 1885 gave the Republican candidate for Governor a plurality of over 16,000. Cook's plurality in New York and Brooklyn is very heavy, nearly 60,000. The George vote in the city is smaller than was anticipated. Advices from the State show that the Democrats and Republicans are getting out all their voters and that the lines are tightly drawn. The indications are that the Prohibitionists will poll a larger vote than at the last election. while the George vote ontside of New York City will be insignificant.

NEW YORK, 9th November. Returns from New York State indicate the election of the Democratic State ticket by a plurality of 18,000 or thereabouts. In Ohio Governor Foraker estimates his plurality at 35,000. Returnson legislative candidates indicate a good Republican majority in the Legislature. In Massachusetts the Republican plurality is estimated at 14,000, though it may go above these figures. The Democratic loss in Boston was about 3,000, and in the State about 8,400. In Rhode Island the Republicans have regained the Warren O. Arnold by a majority of 542. Nebraska has been carried by the Re-

NGLISH AND CHINESE DICTIONARY. DICTIONARY

WITH THE PUNTI AND MANDARIN . Pronunciation An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong.

For comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously

attained, and dispensing with those vast margins and vacant spaces which have beretofore characterized Chinese publications To illustrate the vast scope of the work the following facts are submitted for consideration:the T. A., refers to it as "an astonishing re-Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as

For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the nativesthemselves it explains subjects fully with which

very few indeed of them are perfectly acquainted. To parties resident in England and interested DOOKBINDING IN ALL ITS BRANCHES in China it cannot but be invaluable occasion. It comprises upwards of two thousand large A Large REDUCTION in PRICE is made to Purchasers of SIX or more Copies.
